SAMIP SHRESTHA

SENIOR FULL-STACK ENGINEER | React | TypeScript | Node.js | NestJS | PostgreSQL | AI\LLM

Hetauda, Nepal • javasamip@gmail.com • +977-9845539425 • linkedin.com/in/er-samip-shrestha • github.com/samipshresthaq

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer and technical lead with 10+ years of software development experience, with deep expertise in JavaScript/TypeScript, React, Angular, React Native, Node.js/NestJS and PostgreSQL. Experienced in building SaaS and AI-powered products, designing backend services and APIs, optimizing application and database performance, implementing automated testing and CI/CD, and leading engineering teams. Recent work includes LLM evaluation, multimodal audio/video workflows, background processing, WebSockets and cloud-based product development.

CORE TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React, Angular, React Native, Ionic, HTML5, CSS/SCSS, D3.js

Backend: Node.js, NestJS, Express.js, FastAPI, REST APIs, GraphQL, WebSockets

Databases: PostgreSQL, MongoDB

Cloud / DevOps: AWS, Google Cloud, Jenkins, GitHub CI/CD, GitLab

Testing: Playwright, Cypress

Architecture: System Design, Microservices, API Design, Background Workers, Real-Time Communication

AI / LLM: LLM Evaluation, Multimodal AI Workflows, LLM Integrations, AI Training Platforms

PROFESSIONAL EXPERIENCE

TURING INC. — Lead Full-Stack Developer | Apr 2024 – Jan 2026

Tech: React + Typescript, Node/NestJS/Express, PostgreSQL, GraphQL, Prisma, Python/FastAPI, Google Cloud, Jenkins

- Led team of five developers for the development of an AI-driven platform for evaluating complex LLM response failures, including hallucinations, flawed inferences and robotic over-narration, and turning findings into actionable optimization feedback.
- Built and improved full-stack workflows for multimodal applications that upload, process and route audio/video data to LLM-powered services and contributing to $1.8M revenue.
- Improved application performance by 60% and eliminated polling overhead by introducing NestJS background workers, FastAPI WebSocket communication and React component optimization.
- Designed and maintained PostgreSQL schema changes and Prisma migrations; diagnosed and resolved transaction leaks caused by unclosed database connections.
- Owned end-to-end engineering responsibilities including feature development, code reviews, deployments, debugging, system monitoring and production support.
- Collaborated with product managers on roadmap planning and technical priorities while leading delivery under tight deadlines.

SEVA DEVELOPMENT — Senior Full-Stack Developer (Frontend Heavy) | Jul 2022 – Apr 2024

Product: Qualiti | **Tech:** Angular, NestJS, PostgreSQL, Playwright, Cypress, AWS, GitHub CI/CD

- Led frontend engineering for a SaaS product built within a microservices architecture, owning frontend repositories and contributing to $6M in US-market revenue.
- Improved application performance through PostgreSQL query tuning, API optimization, Angular component optimization and JavaScript performance improvements.
- Established a TDD-oriented development workflow with unit and end-to-end testing using Playwright and Cypress.
- Led and mentored the UI engineering team, supported technical decisions, code reviews and delivery quality.
- Collaborated with product owners on roadmap planning, feature priorities and UI/UX improvements.
- Supported CI/CD pipeline debugging and cross-team production issue resolution.

ITONICS NEPAL PVT. LTD. — Senior / Lead Frontend Developer | Sep 2017 – Jun 2022

Tech: Angular, Ionic, jQuery, ES6, D3.js, HTML5 Canvas, Webpack, GitLab

- Developed and maintained SaaS and hybrid mobile applications for web, iOS and Android using Angular and Ionic contributing to onboarding 20% increment in newer clients.
- Led and mentored frontend developers, established coding standards and supported technical growth across the team.
- Designed data-visualization experiences using Canvas and D3.js.
- Collaborated with product managers on sprint planning, architecture, feature scoping and technical delivery.
- Conducted code reviews and technical assessments and maintained engineering documentation.

EARLIER EXPERIENCE

Digital Terai — Front End Developer | Jan 2016 – Aug 2017 | jQuery, ES6, Bootstrap, HTML/CSS, SCSS

Leapfrog Technology — Associate Software Engineer | Jun 2015 – Dec 2015 | ES6, jQuery, HTML/CSS, SVG

Uber Opus Pvt. Ltd — Software Engineering Intern | Dec 2014 – May 2015

SELECTED PROJECT

Instasewa — Project Lead | React, React Native, Express.js, MongoDB, Firebase, AWS, Stripe

Owned product architecture and system design; led development of the hybrid mobile and web applications and coordinated feature planning, prioritization and delivery with stakeholders.

EDUCATION

Kantipur Engineering College — Bachelor's in Computer Engineering | 2010 – 2014
